2004-2005

## About Us: Staff

Teamwork and professional collaboration are hallmarks of the Twain teaching staff. Grade level teams meet on a regular basis to analyze student work and assessments in order to tailor classroom instruction to meet the needs of students. Experienced teachers serve as coaches for new teachers in order to support their professional development. The Twain staff is highly trained in the most effective instructional strategies and many conduct action research each year to validate the strengths of various teaching techniques.
